A Joint Venture :
CIS Gaz Arabia × MASCO Energy

COMPANY
PROFILE 2026

About Masco Pipelines

Who We Are

Masco Pipelines is a newly established joint venture between MASCO Energy Company and CIS Gaz Arabia two industry leaders with decades of complementary expertise in pipeline construction and energy infrastructure.

The company combines MASCO Energy's deep roots in Saudi Arabia's infrastructure landscape and alignment with Vision 2030 with CIS Gaz Arabia's proven EPCC capabilities and international pipeline track record.

Headquartered in Al Khobar, Eastern Province - the heart of Saudi Arabia's energy sector - Masco Pipelines is uniquely positioned to serve Aramco, SABIC, and the Kingdom's expanding giga-project pipeline needs.

THE JV PARTNERS

Vision, Mission & Values

Vision

To become Saudi Arabia's leading integrated pipeline contractor — delivering world-class EPCC and O&M solutions that power the Kingdom's energy future and directly support Vision 2030.

Mission

To combine the engineering excellence of CIS Gaz Arabia with MASCO Energy's Saudi market leadership to deliver safe, efficient, and innovative pipeline infrastructure across the Kingdom and the region.

OUR VALUES

Safety

Zero-harm culture in every project phase

Integrity

Transparent, ethical conduct always

Innovation

Cutting-edge technology & solutions

Quality

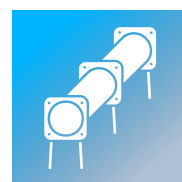

ISO-certified, no compromise

Partnership

Long-term relationships built on trust

CORE CAPABILITIES

EPCC Services

- › Oil & gas transmission pipelines.
- › Collection & distribution networks.
- › Compression & pumping stations.
- › Metering & pressure regulating stations.
- › Cogeneration & solar power plants.

Operations & Maintenance

- › Pipeline integrity management.
- › Preventive & corrective maintenance.
- › Inspection & condition monitoring.
- › Emergency response & repair.
- › Asset lifecycle optimization.

Industrial Engineering

- › Engineering design & FEED studies.
- › Project management . (PMC / EPCM).
- › Technical consultancy & advisory.
- › HDD & trenchless crossings.
- › Directional & horizontal drilling.

Water & Energy Infrastructure

- › Main water transmission pipelines.
- › Sewage & water treatment plants.
- › Power substation construction.
- › Renewable energy systems (solar).
- › Battery energy storage (BESS).

Full EPCC + O&M capability — one partner for the entire project lifecycle

EPCC CAPABILITIES

E**P****C****C**

Engineering & Design

- › FEED & detailed design.
- › Route surveys & geotechnical.
- › Process & mechanical engineering.
- › Structural & civil design.

Procurement & Logistics

- › Global sourcing & vendor mgmt.
- › Supply chain management.
- › Import / export coordination.
- › Materials traceability.

Construction & Installation

- › Pipeline laying & welding.
- › HDD & river crossings.
- › Compression stations.
- › Tie-in & testing.

Commissioning & Handover

- › Pre-commissioning testing.
- › Hydrostatic testing.
- › SCADA & control systems.
- › As-built documentation.

COMBINED TRACK RECORD

GEOGRAPHIC PRESENCE

Egypt

Active EPCC Contracts

- › Hayah Karima gas station programme (13 new + 9 upgraded stations) · West Khier hydrocarbon exploration · Town Gas JV manufacturing factory.

Romania

CIS Gaz Arabia Home Market

- › Transgaz partnerships · Black Sea shore pipeline (131 km) · Danube HDD crossings (63 m depth) · Tetila–Horezu–Râmnicu Vâlcea pipeline · Solar power plants.

Republic of Moldova

Cross-border Infrastructure

- › Romania–Moldova interconnection (62 km · 24in) · Four major pressure reducing & metering stations in Chisinau area for VESTMOLD TRANSGAZ SRL.

Saudi Arabia

Primary Market

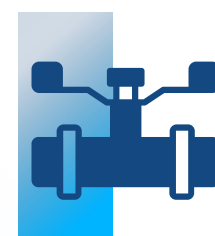

- › Al Khobar HQ · Oil & gas pipelines for Saudi Aramco · NEOM & giga-project infrastructure · Water transmission · Energy systems aligned with Vision 2030.

Headquarters: Al Khobar, Eastern Province, KSA

Expanding into the
broader GCC and Eastern
European markets

WHY MASCO PIPELINES?

Proven at Scale

Combined: 1,500+ km of pipelines, landmark Danube HDD crossing (1,815 m at 63 m depth), Black Sea gas pipeline (131 km), and multi-country delivery.

International Standards

ISO 9001/14001/45001 certified, IPLOCA member. Experienced navigating complex regulatory environments across KSA, Europe, and North Africa.

Full Lifecycle Coverage

Engineering design through procurement, construction, commissioning, and long-term O&M - one partner for the entire project lifecycle.

Strong Financial Foundation

Backed by MASCO Group's SAR 1.154 billion equity and CIS Gaz Arabia's banking relationships across Riyadh Bank, Al Rajhi, Saudi Aramco, and 5 more institutions.
